## Proceedings of the Fourth International Scientific Symposium on Tea and Human Health

---

### **Introduction to the Proceedings of the Fourth International Scientific Symposium on Tea and Human Health**

Lenore Arab and Jeffrey B. Blumberg 1526S

### **Nongallated Compared with Gallated Flavan-3-ols in Green and Black Tea Are More Bioavailable**

Susanne M. Henning, Jung J. Choo, and David Heber 1529S

### **Bioavailability of Polyphenon E Flavan-3-ols in Humans with an Ileostomy**

Cyril Auger, William Mullen, Yukihiko Hara, and Alan Crozier 1535S

### **Tea Is the Major Source of Flavan-3-ol and Flavonol in the U.S. Diet**

Won O. Song and Ock K. Chun 1543S

### **The Relation between Green Tea Consumption and Cardiovascular Disease as Evidenced by Epidemiological Studies**

Shinichi Kuriyama 1548S

### **Tea, Flavonoids, and Nitric Oxide-Mediated Vascular Reactivity**

Davide Grassi, Annalisa Aggio, Luciano Onori, Giuseppe Croce, Sergio Tiberti, Claudio Ferri, Livia Ferri, and Giovambattista Desideri 1554S

### **A Review of the Epidemiological Evidence on Tea, Flavonoids, and Lung Cancer**

Ilja C. W. Arts 1561S

### **Green Tea Consumption Is Associated with Decreased DNA Damage among *GSTM1*-Positive Smokers Regardless of Their *hOGG1* Genotype**

Iman A. Hakim, H.-H. Sherry Chow, and Robin B. Harris 1567S

### **L-Theanine and Caffeine in Combination Affect Human Cognition as Evidenced by Oscillatory alpha-Band Activity and Attention Task Performance**

Simon P. Kelly, Manuel Gomez-Ramirez, Jennifer L. Montesi, and John J. Foxe 1572S

### **Targeting Multiple Neurodegenerative Diseases Etiologies with Multimodal-Acting Green Tea Catechins**

Silvia A. Mandel, Tamar Amit, Limor Kalfon, Lydia Reznichenko, and Moussa B. H. Youdim 1578S

### **Tea Consumption May Improve Biomarkers of Insulin Sensitivity and Risk Factors for Diabetes**

Kim S. Stote and David J. Baer 1584S
