CONTENTS

ARTICLES

Recent Advances in Nutritional Sciences
Cardioprotective Effects of Dietary Polyphenols. Tosca L. Zern and Maria Luz Fernandez ................................. 2291
New Roles for an Old Selenoenzyme: Evidence from Glutathione Peroxidase-1 Null and Overexpressing Mice. Xin Gei Lei and Wen-Hsing Cheng .......................................................... 2295

Biochemical and Molecular Actions of Nutrients
Quercetin Decreases Oxidative Stress, NF-κB Activation, and iNOS Overexpression in Liver of Streptozotocin-Induced Diabetic Rats. Alexandre Simões Dias, Marlene Porawska, María Alonso, Norma Marroni, Pilar S. Collado, and Javier González-Gallego .................................................. 2299
Carotenoid Transport Is Decreased and Expression of the Lipid Transporters SR-BI, NPC1L1, and ABCA1 Is Down-regulated in Caco-2 Cells Treated with Ezetimibe. Alexandre During, Harry D. Dawson, and Earl H. Harrison ........................ 2305
Fatty Acids Induce L-CPT 1 Gene Expression through a PPARα-Independent Mechanism in Rat Hepatoma Cells. Cédric Le May, Michèle Caizac, Claire Diradourian, Dominique Perdereau, Jean Girard, Anne-Françoise Birlou, and Jean-Paul Pégonier .......................................................... 2313
Cocoa-Related Flavonoids Inhibit CFTR-Mediated Chloride Transport across T84 Human Colon Epithelia. Maximilian Schuter, Helmut Sies, Beate Illek, and Horst Fischer .......................................................... 2320
Aquaporin-8 Is Involved in Water Transport in Isolated Superficial Colonocytes from Rat Proximal Colon. Umberto Laforenza, Emanuela Cova, Giulia Gastaldi, Simona Tritto, Monica Graziol, Nicholas F. LaRusso, Patrick L. Splinter, Patrizia D’Adamo, Marisa Tosco, and Ulderico Ventura .......................................................... 2329

Nutrition and Cancer
Biotinylation of K12 in Histone H4 Decreases in Response to DNA Double-Strand Breaks in Human JAR Choriocarcinoma Cells. Nagarama Kothapalli, Gautam Sarath, and Janos Zempleni ........................................................................... 2337
Human Fecal Water Inhibits COX-2 in Colonic HT-29 Cells: Role of Phenolic Compounds. Pernilla C. Karlsson, Ulrika Huss, Andrew Jenner, Barry Halliwell, Lars Bohlin, and Joseph J. Rafter ........................................................................... 2343
Vitamin D Deficiency Enhances the Growth of MC-26 Colon Cancer Xenografts in Balb/c Mice. Vin Tangpricha, Catherine Spina, Min Yao, Tai C. Chen, M. Michael Wolfe, and Michael F. Holick ........................................................................... 2350

Nutrient-Gene Interactions

Human Nutrition and Metabolism
Calcium Supplementation Does Not Augment Bone Gain in Young Women Consuming Diets Moderately Low in Calcium. M. Janet Barger-Lux, K. Michael Davies, and Robert P. Heaney ........................................................................... 2362
Supplementing Copper at the Upper Level of the Adult Dietary Recommended Intake Induces Detectable but Transient Changes in Healthy Adults. Magdalena Araya, Manuel Olivares, Fernando Pizarro, Marco A. Méndez, Mauricio González, and Ricardo Uauy ........................................................................... 2367
Long-Term Consumption of a Raw Food Diet Is Associated with Favorable Serum LDL Cholesterol and Triglycerides but Also with Elevated Plasma Homocysteine and Low Serum HDL Cholesterol in Humans. Corinna Koebnick, Ada L. Garcia, Pieter C. Dagnelie, Carola Strassner, Jan Lindemans, Norbert Katz, Claus Leitzmann, and Ingrid Hoffmann

Calcium Bioavailability of Calcium Carbonate Fortified Soymilk Is Equivalent to Cow’s Milk in Young Women. Yongdong Zhao, Berdine R. Martin, and Connie M. Weaver

Boron Concentrations in Milk from Mothers of Exclusively Breast-Fed Healthy Full-Term Infants Are Stable during the First Four Months of Lactation. Curtis D. Hunt, Nancy F. Butte, and LuAnn K. Johnson

Reduced Glycemic Index and Glycemic Load Diets Do Not Increase the Effects of Energy Restriction on Weight Loss and Insulin Sensitivity in Obese Men and Women. Susan K. Raatz, Carolyn J. Torkelson, J. Bruce Redmon, Kristell P. Reck, Christine A. Kwong, Joyce E. Swanson, Chengcheng Liu, William Thomas, and John P. Bantle

**Community and International Nutrition**

A Pilot School-Based Healthy Eating and Physical Activity Intervention Improves Diet, Food Knowledge, and Self-Efficacy for Native Canadian Children. Brit I. Saksvig, Joel Gittelsohn, Stewart B. Harris, Anthony J. G. Hanley, Tom W. Valente, and Bernard Zinman

Nutrient Metabolism

A Diet Supplemented with Husks of Plantago ovata Reduces the Development of Endothelial Dysfunction, Hypertension, and Obesity by Affecting Adiponectin and TNF-α in Obese Zucker Rats. Milagros Galisteo, Manuel Sánchez, Rocío Vera, Mercedes Gonzalez, Anna Anguera, Juan Duarte, and Antonio Zarzuelo

Crystalline Cellulose Reduces Plasma Glucose Concentrations and Stimulates Water Absorption by Increasing the Digesta Viscosity in Rats. Toru Takahashi, Shuechi Kirita, Noriko Ogawa, and Masakazu Goto

Endotoxin Increases Ascorbate Recycling and Concentration in Mouse Liver. Shiu-Ming Kuo, Chee-Ho Tan, Magdalena Dragan, and John X. Wilson

Aglycones and Sugar Moieties Alter Anthocyanin Absorption and Metabolism after Berry Consumption in Weanling Pigs. Xianli Wu, Hoy E. Pittman, Ill, Steve Mckay, and Ronald L. Prior

Nutrient Interactions and Toxicity

A Novel Protein C-Phycocyanin Plays a Crucial Role in the Hypocholesterolemic Action of Spirulina platensis Concentrate in Rats. Satoshi Nagaoka, Kazuo Shimizu, Hideki Kaneko, Fumi Shibayama, Kensei Morikawa, Yoshihiro Kanamaru, Ayako Otsuka, Tomohiro Hirahashi, and Toshimitsu Kato

Small Intestinal Mucins Are Secreted in Proportion to the Settling Volume in Water of Dietary Indigestible Components in Rats. Hiroki Tanabe, Kimio Sugiyama, Tsukasa Matsuda, Shuhachi Kiriyama, and Tatsuya Morita

Nutritional Immunology

Antiatherogenic Effects of Dietary Plant Sterols Are Associated with Inhibition of Proinflammatory Cytokine Production in Apo E-KO Mice. Baheer Nashed, Behzad Yegehe, Kent T. HayGlass, and Mohammed H. Moghadasi

Nutrient Requirements

Maternal Vitamin E Supplementation Affects the Antioxidant Capability and Oxidative Status of Hatching Chicks. Yih-Fwu Lin, Hsu-Ling Tsai, Yi-Chun Lee, and Sue-Joan Chang

**Nutritional Epidemiology**

Tobacco Use and Associations of β-Carotene and Vitamin Intakes with Colorectal Adenoma Risk. Pierre Senesse, Mathilde Tovier, Emmanuelle Kesse, Jean Faireva, and Marie-Christine Boutron-Ruault

Middle-Aged and Older Chinese Men and Women in Singapore Who Smoke Have Less Healthy Diets and Lifestyles than Nonsmokers. Woon-Puay Koh, Jian-Min Yuan, Can-Lan Sun, Hin-Peng Lee, and Mimi C. Yu
Vitamin D Intakes by Children and Adults in the United States Differ among Ethnic Groups. Carolyn E. Moore, Mary M. Murphy, and Michael F. Holick .......................................................... 2478
Interventions Designed to Increase Adult Fruit and Vegetable Intake Can Be Effective: A Systematic Review of the Literature. Joceline Pomerleau, Karen Lock, Cécile Knai, and Martin McKee. .................................. 2486

LETTER TO THE EDITOR

Erratum .......................................................... 2497

Announcements ...................................................... 2498

Manuscript submission: manuscripts must be submitted using the online manuscript submission system at http://submit.nutrition.org. Instructions for the preparation and submission of manuscripts are provided in the “Instructions for Authors” available online at http://submit.nutrition.org. Authors who wish to obtain a print copy of the “Instructions for Authors” should contact the American Society for Nutrition, 9650 Rockville Pike, Bethesda, MD 20814; email: jnutrition@nutrition.org; telephone 301-634-7985; fax 301-634-7892.
