CONTENTS

ARTICLES

Recent Advances in Nutritional Sciences

Proteomics and Its Role in NutritionResearch. Junjun Wang, Defa Li, Lawrence J. Dangott, and Guoyao Wu 1763

Epigenetic Regulation of Chromatin Structure and Gene Function by Biotin. Yousef I. Hassan and Janos Zempleni 1759

Biochemical, Molecular, and Genetic Mechanisms

Red Grape Juice Polyphenols Alter Cholesterol Homeostasis and Increase LDL-Receptor Activity in Human Cells In Vitro. Alberto Dávalos, Carlos Fernández-Hernando, Francisca Cerrato, Javier Martínez-Botas, Diego Gómez-Coronado, Carmen Gómez-Cordovés, and Miguel A. Lasunción 1766

Maternal Folate Deficiency Affects Proliferation, but Not Apoptosis, in Embryonic Mouse Heart. Deqiang Li and Rima Rozen 1774

Reduced Fat Mass in Rats Fed a High Oleic Acid–Rich Safflower Oil Diet Is Associated with Changes in Expression of Hepatic PPARα and Adipose SREBP-1c–Regulated Genes. Shan-Ching Hsu and Ching-jang Huang 1779

Dietary Supplementation with Zinc Oxide Increases IGF-I and IGF-I Receptor Gene Expression in the Small Intestine of Weanling Piglets. Xilong Li, Jingdong Yin, Defa Li, Xingjie Chen, Jianjun Zang, and Xuan Zhou 1786

Leucine Activates Pancreatic Translational Machinery in Rats and Mice through mTOR Independently of CCK and Insulin. María Dolors Sans, Mitsuo Tashiro, Nancy L. Vogel, Scot R. Kimball, Louis G. D’Aley, and John A. Williams 1792

Nutrient Physiology, Metabolism, and Nutrient-Nutrient Interactions

Diacylglycerol Oil Does Not Affect Portal Vein Transport of Nonesterified Fatty Acids but Decreases the Postprandial Plasma Lipid Response in Catheterized Pigs. Janni Brogaard Kristensen, Henry Jørgensen, and Huiling Mu 1800

Salt Dual-Fortified with Iodine and Micronized Ground Ferric Pyrophosphate Affects Iron Status but Not Hemoglobin in Children in Côte d’Ivoire. Rita Wegmüller, Fatoumata Camara, Michael B. Zimmermann, Pierre Adou, and Richard F. Hurrell 1814

Urinary C-Peptide Excretion in Free-Living Healthy Children Is Related to Dietary Carbohydrate Intake but Not to the Dietary Glycemic Index. Anette E. Buyken, Yvonne Kellerhoff, Sebastian Hahn, Anja Kroke, and Thomas Remer 1828
Ornithine Restores Ureagenesis Capacity and Mitigates Hyperammonemia in \( \text{Otc}^{\text{spf-ash}} \) Mice. Juan C. Marini, Brendan Lee, and Peter J. Garlick .............................................................. 1834

The Reduced Energy Intake of Rats Fed a High-Protein Low-Carbohydrate Diet Explains the Lower Fat Deposition, but Macronutrient Substitution Accounts for the Improved Glycemic Control. Clémence Blouet, François Mariotti, Dalila Azzout-Marniche, Cécile Bos, Véronique Mathé, Daniel Tomé, and Jean-François Huneau ............ 1849

A Reduced Carbohydrate, Increased Protein Diet Stabilizes Glycemic Control and Minimizes Adipose Tissue Glucose Disposal in Rats. Jamie I. Baum, Donald K. Layman, Gregory G. Freund, Kristen A. Rahn, Manabu T. Nakamura, and Barbara E. Yudell .................................................. 1855

The Prenylflavonoid Isoxanthohumol from Hops (Humulus lupulus L.) Is Activated into the Potent Phytoestrogen 8-Prenylnaringenin In Vitro and in the Human Intestine. Sam Possemiers, Selin Bolca, Charlotte Grootaert, Arne Heyerick, Karel Decroos, Willem Dhooge, Denis De Keukeleire, Sylvie Rabot, Willy Verstraete, and Tom Van de Wiele .................................................. 1862

**Nutrition and Disease**

Erythrocyte Iron Incorporation but Not Absorption Is Increased by Intravenous Iron Administration in Erythropoietin-Treated Premature Infants. John A. Widness, Robert E. Serfass, Nadja Haiden, Steven E. Nelson, Kenneth A. Lombard, and Arnold Pollak .......................................................... 1868

(n-3) Long-Chain Polyunsaturated Fatty Acids Prolong Survival following Myocardial Infarction in Rats. Gary P. Zaloga, Nargiz Ruzmetov, Kevin A. Harvey, Colin Terry, Neal Patel, William Stillwell, and Rafat Siddiqui ............ 1874

A Mediterranean Diet Is Cost-Effective in Patients with Previous Myocardial Infarction. Kim Dalziel, Leonie Segal, and Michel de Lorgeril .................................................. 1879

**Nutrient Requirements and Optimal Nutrition**

Meat and Soy Protein Affect Calcium Homeostasis in Healthy Women. Jane E. Kerstetter, Diane E. Wall, Kimberly O. O’Brien, Donna M. Caseria, and Karl L. Insogna .................................................. 1890

**Nutritional Epidemiology**

**Nutritional Immunology**

Plasma \( \alpha_1 \)-Acid Glycoprotein Can Be Used to Adjust Inflammation-Induced Hyporetinolemia in Vitamin A-Sufficient, but Not Vitamin A-Deficient or -Supplemented Rats. Sin H. Gieng and Francisco J. Rosales .... 1904
Methodology and Mathematical Modeling

Announcements ........................................................................................................... 1921

Manuscript submission: manuscripts must be submitted using the online manuscript submission system at http://submit.nutrition.org. Instructions for the preparation and submission of manuscripts are provided in the “Instructions for Authors” available online at http://submit.nutrition.org. Authors who wish to obtain a print copy of the “Instructions for Authors” should contact the American Society for Nutrition, 9650 Rockville Pike, Bethesda, MD 20814; email: jnutrition@nutrition.org; telephone 301-634-7985; fax 301-634-7892.
