Introducing the new name for purified-ingredient diets.

Research Diets, Inc. has redefined purified-ingredient lab animal diets with the introduction of OpenSource Diets™. Unlike grain-based chows, OpenSource Diet formulas can be repeated and revised again and again. Since each nutrient is supplied by a separate purified ingredient you are in control of what you are feeding.

Control the composition of this crucial reagent in your experiments with OpenSource Diets™. A product of Research Diets, Inc. Contact our Resource Center at info@researchdiets.com to learn more.
Reap The Fruits Of Reliable Nutrition.

Constant Nutrition™ means constant watchfulness on every variable in the production of LabDiet® food. That begins right here in our suppliers’ fields. At LabDiet, we closely monitor our suppliers’ crops to make sure there are no chemical residues from pesticides or fertilizers that can skew your test results.

And we go further. All animal feed companies should know that climate changes, soil conditions, rain and drought can affect the nutritional profile of raw ingredients. Corn harvested from the same plot may vary in protein yield as much as 4% from year to year.

To maintain a constant level of nutrients, we at LabDiet assay ingredients every day and fine tune our production to assure you receive the exact, constant nutrient delivery defined in your research protocol. Because at LabDiet, we believe your work is worth it.

For product information: www.labdiet.com or call us at 1-800-227-8941.

LabDiet® and Constant Nutrition™ are registered trademarks of Purina Mills, LLC

Your work is worth it.™
Dedication to the research community is a key ingredient in every Harlan Teklad Product.

Custom research diets are an important tool for your research involving all types of laboratory animals. Teklad custom research diets are used in the study of atherosclerosis, obesity, insulin resistance, diabetes, cancer, hypertension, stroke, toxicology, gene induction, renal disease, pancreatitis, neurological disorders, and other areas. We are dedicated to quality in all aspects of ingredient selection, diet formulation and production, and customer service. We also supply ingredients for those who prepare their own diets. Contact our knowledgeable technical staff to discuss your specific diet needs. Together, your input and our expertise will enhance your research.
YOUR ONE SOURCE...

Custom and Standard Diets
Medicated Tablets and Feed
Enrichment Devices and Treats

Whether you are starting a diet study, testing a compound, or need medicated feed, Bio-Serv is the right choice. Our superior Customer Service personnel, along with our VMD, and a Ph.D. Nutritionist, are ready to assist you every step of the way. With over 30 years of experience, and our ISO 9001:2000 registered quality system, we are confident that we can help you achieve your research goals. Let’s work together on your next project.

Editor-in-Chief
The American Journal of Clinical Nutrition
Announcement of Search

The American Society for Nutrition (ASN) is conducting a search for Editor-in-Chief of The American Journal of Clinical Nutrition (AJCN), an interdisciplinary, peer-reviewed journal that publishes meritorious work in basic and clinical studies relevant to human nutrition. The AJCN is the leading journal in clinical nutrition worldwide, with subscribers on six continents, and has the highest impact factor among peer-reviewed nutrition and dietetics journals. The five-year appointment of the new Editor will begin in July 2007. Applications are due August 31, 2006.

Applicants should send a curriculum vitae and letter of interest that includes a vision of innovative plans for the scientific and educational content of the journal and its distribution in this electronic era. Detailed information about journal operations is available from the ASN Office upon request.

Apply to Chair, AJCN Search Committee

Unilever Research in India is looking for a creative and passionate individual with deep knowledge in NUTRITION synergized with experience in processing. The individual is expected to lead the Nutrition Research Department and

• Understand and assimilate the advanced state of knowledge in nutrition, couple it with engineering and apply it effectively
• Define and run a nutrition research program with well-defined milestones, and delivery against stretching targets.
• Team with experts in the global Unilever R&D community
• Interact with external experts in academia and industry, and establish collaboration wherever suitable.
• Interact with business/marketing on a regular basis and drive the research program to specific delivery to benefit consumers and the business

The candidates should:
• Have a PhD in Science/ Engineering, with substantial research component in Nutrition
• Have excellent scientific credentials that are highly respected by the nutrition-science community
• Have engineering, especially process engineering, credentials that are highly respected in the engineering community
• Have 5-10 years work experience in a nutrition intensive research
• He/ she should be desirable to settle down in India and contribute to regional and global nutritional needs.

Please send CV’s to hrd.hlrc-blr@unilever.com or mail to Hindustan Lever Limited, Research Center, 64 Main Road, Whitefield, Bangalore: 560066, India. For more details, enter www.unilever.com

ANNOUNCEMENT

SUPPLEMENTAL RESEARCH AWARD FOR PHYSIOLOGICAL EFFECTS OF CARBOHYDRATES

The ILSI Research Foundation is soliciting applications from junior investigators (no more than 5 years since most recent post-doctoral fellowship) for innovative supplemental studies aimed at identifying in vivo endpoints that link dietary carbohydrate intake to a physiological or health-related outcome.

Research topics of interest include the impact of dietary carbohydrates on: 1) appetite control in the content of energy balance 2) glycemic response at it relates to risk for overweight/obesity and chronic disease 3) food intake behavior, physical activity patterns, and performance, and 4) gut health.

Each award will not exceed US$ 30,000 per year for a maximum of 2 years. Application deadline is October 27, 2006. To obtain an application package, please contact the ILSI Research Foundation, One Thomas Circle, NW, 9th Floor, Washington, DC 20005-5802. Telephone: 202-659-0789; fax: 202-659-3617; or email: rf@ilsi.org. Additional information is available at www.ilsi.org.

The M. L. Sunde Award recognizes outstanding experimental, applied or fundamental research on avian nutrition. An award of $2,500 will be presented annually to the first author or authors of an outstanding research paper using an avian species in research published in The Journal of Nutrition. Eligible manuscripts will be reviewed by an Award Jury. The selection of the awardee will be based on the long term value of the research to the poultry industry and to mankind.

The M.L. Sunde Award is made available by the M.L. Sunde Endowment Fund.

The American Society for Nutrition is pleased to acknowledge the support by these organizations for educational programs of the society.
The ASN Program Committee for *EB 2008* is preparing to review submissions for Symposia/Controversy presentations at the annual meeting in San Diego CA. Participating societies include Nutrition (ASN), Physiology (APS), Pharmacology (ASPET), Pathology (ASIP), Anatomy (AAA), and American Society for Biochemistry and Molecular Biology (ASBMB). You are encouraged to propose multi-disciplinary topics.

OUTLINE THE SYMPOSIUM/CONTROVERSY AND ITS OBJECTIVES, INCLUDING AT A MINIMUM, THE FOLLOWING: You can access a template for the submission of your symposium at: [http://asnutrition.org/eb2008/eb08template.htm](http://asnutrition.org/eb2008/eb08template.htm)

1. Tentative session title, potential speakers and tentative presentation titles
2. Projected timeliness and breadth of interest to membership
3. The uniqueness and need to cover the topic (Has topic been covered recently at a national meeting?)
4. FOR CONTROVERSY SESSIONS, identify the ASN Research Interest Section (RIS) that is most closely related. You can find a RIS listing on our website at: [http://www.asnutrition.org/committees/2005-2006/ris.htm](http://www.asnutrition.org/committees/2005-2006/ris.htm)
5. Name, address, society affiliation, telephone, FAX and EMAIL of both organizer and co-organizer

**PROPOSED SYMPOSIA SHOULD NOT EXCEED TWO HOURS AND SHOULD BE EMAILED TO THE ASN SECRETARIAT AT:**

ameyers@nutrition.org

**DEADLINE: JANUARY 15, 2007 ---- NOW IS THE TIME!!!!!!**
Subscribe to The Journal of Nutrition . . .

The premier journal for the publication of research findings in nutrition.

The Journal of Nutrition was the first in the field to provide a forum for nutrition professionals. The Journal is a highly valued resource for scientists world-wide who need timely and accurate information on all important aspects of nutrition research.

Key areas covered:
- Biochemical and Molecular Action of Nutrients
- Metabolomics
- Nutrient-Gene Interactions
- Human Nutrition and Metabolism
- Community and International Nutrition
- Nutrient Metabolism
- Nutrient Requirements
- Nutrient Interactions and Toxicity
- Nutritional Immunology
- Nutritional Neurosciences
- Nutrition and Aging
- Nutrition and Cancer
- Nutritional Epidemiology

Subscriptions to the print version of The Journal of Nutrition include access to The Journal of Nutrition Online at www.nutrition.org.

--------------------------------- Enter My Subscription for 2006 ---------------------------------

The Journal of Nutrition. Published monthly by The American Society for Nutrition

Subscription type:
- Nonmember personal online only $150
- Nonmember personal print and online $200
- Institutional online only $595
- Institutional print and online $615

Nonmember personal and Institutional subscriptions are entered on a calendar year basis. Postage differential outside the US, add $50.00.
