Symposia:
Proteomic and metabolic responses to diet and supplements
Lactobacillus protection of intestinal epithelial barriers

Heavy metal exposure and health outcomes in women and children
Research Diets leads. Others follow.

We’re flattered that our competitors have tried to duplicate our model. The worldwide use and publication of our High Fat DIO Diets has encouraged other manufacturers to offer similar diets based on our “Original” formulas.

There is only one way to ensure that you match a diet referenced in the scientific literature -- go to the source of the formula. The only place to get original formula OpenSource Diets is from Research Diets, Inc.

Our DIO Diets have been cited hundreds of times in the scientific literature.

DIO (Diet-Induced Obesity) High Fat Diets
