Research Diets leads. Others follow.

We’re flattered that our competitors have tried to duplicate our model. The worldwide use and publication of our High Fat DIO Diets has encouraged other manufacturers to offer similar diets based on our “Original” formulas.

There is only one way to ensure that you match a diet referenced in the scientific literature -- go to the source of the formula. The only place to get original formula OpenSource Diets is from Research Diets, Inc.

Our DIO Diets have been cited hundreds of times in the scientific literature.

Animal Specialties and Provisions, LLC
Quakertown, PA

“N o one in the business beats us at delivering exceptional service. And knowledgeable people know that no one beats LabDiet at delivering the highest quality animal nutrition.”
- Bill Clark

Most of the top-ranked investigators specify LabDiet® for their important work. The only exception is when a study requires a specialized diet. That’s when the experts turn to TestDiet® from Purina®, because they respect the quality and accuracy of these custom formulations.
