Don’t feed your lab animals like field mice.

Grain-based lab animal diet formulas change to account for geographic and seasonal variations in the macronutrient content of the ingredients. These formula changes can lead to variation in the levels of phytosterogens, heavy metals, and other xenobiotic compounds that ride-along with these ingredients.

Purified-ingredient OpenSource Diet formulas are completely open and only change at the researcher’s request, allowing them to report exactly what their animals are fed. Repeat their experiments, and revise dietary components while matching previous diets. Don’t feed your lab animals like field mice — Feed your lab animals OpenSource Diets™. Contact our Resource Center at info@researchdiets.com to learn more.

Scotts’ Distributing, Inc.
Hudson, NH

“Anyone who knows anything about animal nutrition will tell you LabDiet is the best and always has been, for over 40 years. That’s the same claim we make for Scotts’ Distributing, Inc.”
- Tom Scott

Scotts’ Distributing, Inc. has served the New England and Upstate NY Area in the distribution of Laboratory Animal Food and Bedding products for more than 47 years. Family-owned and operated since inception in 1961, Scotts’ is one of the leaders in the industry. As an ISO 9001:2000 Certified Purina LabDiet® Dealer, Scotts’ is proud to exceed quality standards for the distribution of laboratory animal food, bedding and enrichment. We are proud members of AALAS, NEBAALAS, Upstate NY AALAS and Northern Mountain Branch AALAS. Scotts’ can be reached at 800-640-9238.
