Research Diets leads. Others follow.

We’re flattered that our competitors have tried to duplicate our model. The worldwide use and publication of our High Fat DIO Diets has encouraged other manufacturers to offer similar diets based on our “Original” formulas.

There is only one way to ensure that you match a diet referenced in the scientific literature -- go to the source of the formula. The only place to get original formula OpenSource Diets is from Research Diets, Inc.

Contact our Resource Center Scientists for the OpenSource Diet formula for your next study.

Different models demand different diets...

Our DIO Diets have been cited hundreds of times in the scientific literature.
