Satisfy their needs, enrich their senses.

Macro-Pack
Provides ideal method of delivering superior and constant nutrition along with animal enrichment.
200 X 75-grain packs per box • Four products available

Monkey Jumble®
A fusion of seeds, nuts, fruits and vegetables for enhanced palatability. The assortment of flavors and textures will keep primates interested over long periods of time.

Monkey Morsels®
A tasty mixture of small fruits, seeds, and vegetables that are especially suited to encourage the natural foraging instincts of primates.

Vegetable Relish®
A tasty snack for animals of all sizes and ages, including the zesty flavors of tomato, carrots and sweet potatoes. The unique sizes, shapes and palatability of this blend will keep your animals nibbling, engaged and entertained over time.

Health Products
Specialized products to enrich performance and well-being. Products include PriMade® Hydrating Electrolyte Replenisher, Vitamin Supplement Tablets, and PriLieve® Series medicated tablets for maintenance of health and prevention of disease.

LabTreat® Primate Enrichment Products
Primate enrichment products, perfect for reward, reinforcement, and psychological well-being. Products include Foraging Bits, Primate Crunch®, High Fat Primate Treats, Monkey Delight® Tablets, LabTreat® Enrichment Tablets, LabTreat® Omnifit Tablets & Pellets, and LabTreat® Primem Enrichment Pellets.

A Publication of the American Society for Nutrition • www.nutrition.org

Dietary acid load and bone mineral density
Flavonoids and markers of endothelial dysfunction
Infant birth size and breastfeeding duration
Human model of selenium metabolism

Supplement: Iron Works...The John Beard Memorial Symposium
As seasons change ... so do grain-based lab animal diets.

Grain-based lab animal diets change along with the seasons allowing for variations in the macronutrient content of the ingredients. These changes can lead to variation in the levels of phytoestrogens, heavy metals, and other xenobiotic compounds that ride-along with these ingredients.

Purified-ingredient OpenSource Diet formulas are completely open and change only at the researcher’s request, allowing them to report exactly what their animals are fed. repeat their experiments, and revise dietary components while matching previous diets. Don’t leave your diet formulas to chance -- Know what you’re feeding with OpenSource Diets. Contact our Resource Center at info@researchdiets.com to learn more.

Nutritional
Custom and Standard Diets for Research Models

Enrichment
Treats and Devices to improve animal welfare in all species

Medicated
Test Articles and Medications added to diets or treats for stress free dosing

Special Needs
Products to ensure animal survival and reliable research outcomes

We recognize your research needs are not one dimensional, which is why we developed the Solutions line of products. Working with research animals presents unique challenges. Bio-Serv understands these challenges, and has worked together with our customers for 40 years to develop solutions for the many issues that arise when conducting experimental laboratory animal research. Our experienced staff will work diligently with you to help you achieve your goals.
