NUTRIENT PHYSIOLOGY, METABOLISM, AND NUTRIENT-NUTRIENT INTERACTIONS

Fermentation in the Small Intestine Contributes Substantially to Intestinal Starch Disappearance in Calves
Myrthe S Gilbert, André J Pantophlet, Harma Berends, Anton M Pluschke, Joost JGC van den Borne, Wouter H Hendriks, Henk A Schols, and Walter JJ Gerrits 1147

L-Tryptophan Activates Mammalian Target of Rapamycin and Enhances Expression of Tight Junction Proteins in Intestinal Porcine Epithelial Cells
Hao Wang, Yun Ji, Guoyao Wu, Kaiji Sun, Yuli Sun, Wei Li, Bin Wang, Beibei He, Qing Zhang, Zhaolai Dai, and Zhenlong Wu 1156

Nitrogen Absorbed from the Large Intestine Increases Whole-Body Nitrogen Retention in Pigs Fed a Diet Deficient in Dispensable Amino Acid Nitrogen
Wilfredo D Mansilla, Daniel A Columbus, John K Htoo, and Cornelis FM de Lange 1163

Fat Emulsion Intragastric Stability and Droplet Size Modulate Gastrointestinal Responses and Subsequent Food Intake in Young Adults
Mahamoud O Hussein, Caroline L Hoad, Jeff Wright, Gulzar Singh, Mary C Stephenson, Eleanor F Cox, Elisa Placidi, Susan E Pritchard, Pip Rayment, Robin C Spiller, Penny A Gowland, and Luca Marciani 1170

Protein Ingestion before Sleep Increases Muscle Mass and Strength Gains during Prolonged Resistance-Type Exercise Training in Healthy Young Men
Tim Snijders, Peter T Res, Joey SJ Smeets, Stephan van Vliet, Janneau van Kranenburg, Kamil Maase, Arie K Kies, Lex B Verdijk, and Luc JC van Loon 1178

NUTRITION AND DISEASE

Cranberry Juice Consumption Lowers Markers of Cardiometabolic Risk, Including Blood Pressure and Circulating C-Reactive Protein, Triglyceride, and Glucose Concentrations in Adults
Janet A Novotny, David J Baer, Christina Khoo, Sarah K Gebauer, and Craig S Charron 1185

Elevated Hepcidin Is Part of a Complex Relation That Links Mortality with Iron Homeostasis and Anemia in Men and Women with HIV Infection
Peter A Minchella, Andrew E Armitage, Bakary Darboe, Momodou W Jallow, Hal Drakesmith, Assan Jaye, Andrew M Prentice, and Joann M McDermid 1194

Preventive and Therapeutic Effects of Lactobacillus Paracasei B21060–Based Synbiotic Treatment on Gut Inflammation and Barrier Integrity in Colitic Mice
Raffaele Simeoli, Giuseppina Mattace Raso, Adriano Lama, Claudio Pirozzi, Anna Santoro, Francesca Di Guida, Marco Sanges, Ezra Aksoy, Antonio Calignano, Agesilao D’Arienzo, and Rosaria Meli 1202

Dietary Patterns Are Associated with Metabolic Risk Factors in South Asians Living in the United States
Meghana D Gadgil, Cheryl AM Anderson, Narmratha R Kandula, and Alka M Kanaya 1211
The Antiatherogenic Effect of Fish Oil in Male Mice Is Associated with a Diminished Release of Endothelial ADAM17 and ADAM10 Substrates
Nancy Speck, Corinna Brandsch, Nadine Schmidt, Narges Yazdekhasti, Frank Hirche, Ralph Lucius, Gerald Rimbach, Gabriele I Stangl, and Karina Reiss 1218

NUTRIENT REQUIREMENTS AND OPTIMAL NUTRITION

Dietary Arginine Requirements for Growth Are Dependent on the Rate of Citrulline Production in Mice
Juan C Marini, Umang Agarwal, and Inka C Didelija 1227

Cord Blood Vitamin D and Neurocognitive Development Are Nonlinearly Related in Toddlers
Peng Zhu, Shi-Lu Tong, Jia-Hu Hao, Rui-Xue Tao, Kun Huang, Wen-Biao Hu, Qi-Fan Zhou, Xiao-Min Jiang, and Fang-Biao Tao 1232

A New Database Facilitates Characterization of Flavonoid Intake, Sources, and Positive Associations with Diet Quality among US Adults
Rhonda S Sebastian, Cecilia Wilkinson Enns, Joseph D Goldman, Carrie L Martin, Lois C Steinfeldt, Theophile Murayi, and Alanna J Moshfegh 1239

NUTRITIONAL EPIDEMIOLOGY

Vegetable Intake, but Not Fruit Intake, Is Associated with a Reduction in the Risk of Cancer Incidence and Mortality in Middle-Aged Korean Men
Yuni Choi, Jung Eun Lee, Jong-Myon Bae, Zhong-Min Li, Dong-Hyun Kim, Moo-Song Lee, Yoon-Ok Ahn, and Myung-Hee Shin 1249

Gluten Intake Is Positively Associated with Plasma α2-Macroglobulin in Young Adults
Joseph Jamnik, Bibiana Garcia-Bailo, Christoph H Borchers, and Ahmed El-Sohemy 1256

Maternal Prepregnant Body Mass Index and Gestational Weight Gain Are Associated with Initiation and Duration of Breastfeeding among Norwegian Mothers
Anna Winkvist, Anne Lise Brantsæter, Martin Brandhagen, Margareth Haugen, Helle Margrethe Meltzer, and Lauren Lissner 1263

Impacts of In Utero and Early Infant Taste Experiences on Later Taste Acceptance: A Systematic Review
Ina Nehring, Tanja Kostka, Rüdiger von Kries, and Eva A Rehfuess 1271

Urinary Excretion of Select Dietary Polyphenol Metabolites Is Associated with a Lower Risk of Type 2 Diabetes in Proximate but Not Remote Follow-Up in a Prospective Investigation in 2 Cohorts of US Women
Qi Sun, Nicole M Wedick, Shelley S Tworoger, An Pan, Mary K Townsend, Aedin Cassidy, Adrian A Franke, Eric B Rimm, Frank B Hu, and Rob M van Dam 1280

Dietary Fat Intake Modifies the Effect of a Common Variant in the LIPC Gene on Changes in Serum Lipid Concentrations during a Long-Term Weight-Loss Intervention Trial
Min Xu, San San Ng, George A Bray, Donna H Ryan, Frank M Sacks, Guang Ning, and Lu Qi 1289

Breastfeeding Status at Age 3 Months Is Associated with Adiposity and Cardiometabolic Markers at Age 4 Years in Mexican Children
Ivonne Ramirez-Silva, Juan A Rivera, Belen Trejo-Valdivia, Reynaldo Martorell, Aryeh D Stein, Isabelle Romieu, Albino Barraza-Villarreal, and Usha Ramakrishnan 1295

Maternal Protein Intake during Pregnancy Is Not Associated with Offspring Birth Weight in a Multiethnic Asian Population
Mary Foong-Fong Chong, Ai-Ru Chia, Marjorelee Colega, Mya-Thway Tint, Izzuddin M Aris, Yap-Seng Chong, Peter Gluckman, Keith M Godfrey, Kenneth Kwek, Seang-Mei Saw, Fabian Yap, Rob M van Dam, and Yung Seng Lee on behalf of the GUSTO study group 1303

COMMUNITY AND INTERNATIONAL NUTRITION

Reported and Observed Controlling Feeding Practices Predict Child Eating Behavior after 12 Months
Heidi J Bergmeier, Helen Skouteris, Emma Haycraft, Jess Haines, and Merrilyn Hooley 1311
A 2-Year Integrated Agriculture and Nutrition and Health Behavior Change Communication Program Targeted to Women in Burkina Faso Reduces Anemia, Wasting, and Diarrhea in Children 3–12.9 Months of Age at Baseline: A Cluster-Randomized Controlled Trial
Deanna K Olney, Abdoulaye Pedehombga, Marie T Ruel, and Andrew Dillon 1317

The Deuterium Oxide–to-the-Mother Method Documents Adequate Breast-Milk Intake among Sri Lankan Infants
Thushari Bandara, Manjula Hettiarachchi, Chandrani Liyanage, Sujeewa Amarasena, and William W Wong 1325

Prenatal Supplementation with Docosahexaenoic Acid Has No Effect on Growth through 60 Months of Age
Ines Gonzalez-Casanova, Anyeh D Stein, Wei Hao, Raquel Garcia-Feregrino, Albino Barraza-Villarreal, Isabelle Romieu, Juan A Rivera, Reynaldo Martorell, and Usha Ramakrishnan 1330

Environmental, Dietary, and Behavioral Factors Distinguish Chinese Adults with High Waist-to-Height Ratio with and without Inflammation
Amanda L Thompson, Linda Adair, Penny Gordon-Larsen, Bing Zhang, and Barry Popkin 1335

Supplementation of Maternal Diets during Pregnancy and for 6 Months Postpartum and Infant Diets Thereafter with Small-Quantity Lipid-Based Nutrient Supplements Does Not Promote Child Growth by 18 Months of Age in Rural Malawi: A Randomized Controlled Trial
Per Ashorn, Lotta Alho, Ulla Ashorn, Yin Bun Cheung, Kathryn G Dewey, Austrida Gondwe, Ulla Harjunmaa, Anna Larney, Nozgechi Phiri, Thokozani E Phiri, Stephen A Vosti, Marrane Zeltani, and Kenneth Maleta 1345

The Probiotic Mixture VSL#3 Has Differential Effects on Intestinal Immune Parameters in Healthy Female BALB/c and C57BL/6 Mice
Rob Mariman, Frans Tielen, Frits Koning, and Lex Nagelkerken 1354

A Dual-Carbon-and-Nitrogen Stable Isotope Ratio Model Is Not Superior to a Single-Carbon Stable Isotope Ratio Model for Predicting Added Sugar Intake in Southwest Virginian Adults
Valisa E Hedrick, Jamie M Zoellner, A Hope Jahren, Natalie A Woodford, Joshua N Bostic, and Brenda M Davy 1362

Association of Soft Drink Consumption with Increased Waist Circumference Should Be Adjusted for Body Mass Index
Pierre Traissac, Jalila El Ati, Agnès Gartner, Yves Martin-Prével, and Francis Delpeuch 1370
