Coffee consumption and telomere length
Dietary fiber and teen calcium absorption
Diet quality and physical function
Maternal health literacy and child nutritional status

Supplement: Do We Need Preconception Nutrition Interventions to Improve Birth Outcomes beyond the Prevention of Neural Tube Defects? Current Knowledge and Future Directions

There are over 100 proven LabDiet® animal food formulas to meet all of your research needs.

ADVANCED PROTOCOL
VERIFIED RODENT DIET - 751F

• Formulated and analyzed to VERIFY <75 ppm of total isoflavones
• Provides all essential nutrients including natural occurring amino acids for optimum animal health
• Managed Formulation delivers Constant Nutrition® for reliable nutrition, crop season after crop season, year after year
• Contains no alfalufs thus reducing the phytoestrogen coumestrol – ideal grain based diet for imaging studies
• Our qualified staff of Ph.D. Nutritionists are always within reach to help you select the right LabDiet® product to meet your research needs: info@LabDiet.com
• Available worldwide through our reliable network of Certified LabDiet® Dealers, for a CLD near you see LabDiet.com

Get the real story about Isoflavones in animal diets, without the scare tactics, from LabDiet®, the leaders in animal nutrition.

Your work is worth it.
