Consumption of walnuts and other whole foods impacts metabolic function
Protein supplementation, exercise training, and lean mass
Intestinal permeability in pregnancy
Iron incorporation in malaria

Biomarkers of Nutrition for Development (BOND) Expert Panel Reviews, Part 4
The Dietary Intake and Eating Habits of the Mexican Population: Results from the National Health and Nutrition Survey 2012

There are over 100 proven LabDiet® animal food formulas to meet all of your research needs.

ADVANCED PROTOCOL
VERIFIED RODENT DIET - 751F

- Formulated and analyzed to VERIFY <75 ppm of total isoflavones
- Provides all essential nutrients including natural occurring amino acids for optimum animal health
- Managed Formulation delivers Constant Nutrition® for reliable nutrition, crop season after crop season, year after year
- Contains no alfalfas thus reducing the phytoestrogen coumestrol – ideal grain based diet for imaging studies
- Our qualified staff of Ph.D. Nutritionists are always within reach to help you select the right LabDiet® product to meet your research needs: info@LabDiet.com
- Available worldwide through our reliable network of Certified LabDiet® Dealers, for a CLD near you see LabDiet.com

LabDiet®
Your work is worth it.

What Control Diet are you using?

"We control the heck out of our diets."

†Let's see...what diets did I use?

HMM...is my control diet confounding my results?

GADZOOKS! I compared a purified diet to a chow.

GADZOOKS! I compared a purified diet to a chow.

Research Diets will formulate The Perfect MATCH.
