COMMENTARY

Sheila E Fleischhacker, Rachel M Ballard, Pamela E Starke-Reed, Deborah A Galuska, and Marian L Neuhouser 1833

GENOMICS, PROTEOMICS, AND METABOLOMICS

The Human Serum Metabolome of Vitamin B-12 Deficiency and Repletion, and Associations with Neurological Function in Elderly Adults
Alex Brito, Dmitry Grapov, Johannes Fahrmann, Danielle Harvey, Ralph Green, Joshua W Miller, Sergey N Fedosov, Setareh Shahab-Ferdows, Daniela Hampel, Theresa L Pedersen, Oliver Fiehn, John W Newman, Ricardo Uauy, and Lindsay H Allen 1839

Estimation of Chicken Intake by Adults Using Metabolomics-Derived Markers
Xiaofei Yin, Helena Gibbons, Milena Rundle, Gary Frost, Breige A McNulty, Anne P Nugent, Janette Walton, Albert Flynn, Michael J Gibney, and Lorraine Brennan 1850

Analyses of Selenotranscriptomes and Selenium Concentrations in Response to Dietary Selenium Deficiency and Age Reveal Common and Distinct Patterns by Tissue and Sex in Telomere-Dysfunctional Mice
Lei Cao, Li Zhang, Huaweii Zeng, Ryan TY Wu, Tung-Lung Wu, and Wen-Hsing Cheng 1858

NUTRIENT PHYSIOLOGY, METABOLISM, AND NUTRIENT-NUTRIENT INTERACTIONS

Lipid-Based Nutrient Supplements During Pregnancy and Lactation Did Not Affect Human Milk Oligosaccharides and Bioactive Proteins in a Randomized Trial
Josh M Jorgensen, Charles Arnold, Per Ashorn, Ulla Ashorn, David Chaima, Yin Bun Cheung, Jasmine CC Davis, Yue-Mei Fan, Elisha Goonatilleke, Emma Kortekangas, Chiza Kumwenda, Carlito B Lebrilla, Kenneth Maleta, Lauren D Totten, Lauren D Wu, and Kathryn G Dewey 1867

Moderate Walking Enhances the Effects of an Energy-Restricted Diet on Fat Mass Loss and Serum Insulin in Overweight and Obese Adults in a 12-Week Randomized Controlled Trial
Bernadette Kleist, Ursel Wahrburg, Peter Stehle, Ralph Schomaker, Andreas Greiwing, Birgit Stoffel-Wagner, and Sarah Egert 1875

College-Aged Males Experience Attenuated Sweet and Salty Taste with Modest Weight Gain
Corinna A Noel, Patricia A Cassano, and Robin Dando 1885

Dietary Methionine Restriction Alleviates Hyperglycemia in Pigs with Intrauterine Growth Restriction by Enhancing Hepatic Protein Kinase B Signaling and Glycogen Synthesis
Zhixiong Ying, Hao Zhang, Weipeng Su, Le Zhou, Fei Wang, Yue Li, Lili Zhang, and Tian Wang 1892
Fructo-oligosaccharide-Induced Transient Increases in Cecal Immunoglobulin A Concentrations in Rats Are Associated with Mucosal Inflammation in Response to Increased Gut Permeability

Tomomi Genda, Yuta Sasaki, Takashi Kondo, Shingo Hino, Naomichi Nishimura, Takamitsu Tsukahara, Kei Sonoyama, and Tatsuya Morita

1900

NUTRITION AND DISEASE

A High-Fat Diet Decreases Bone Mass in Growing Mice with Systemic Chronic Inflammation Induced by Low-Dose, Slow-Release Lipopolysaccharide Pellets

Jay J Cao, Brian R Gregoire, and Chwan-Li Shen

1909

Plant-based Food Cyanidin-3-Glucoside Modulates Human Platelet Glycoprotein VI Signaling and Inhibits Platelet Activation and Thrombus Formation

Yanling Yao, Yanqiu Chen, Reheman Adili, Thomas McKeown, Pingguo Chen, Guangheng Zhu, Dan Li, Wenhua Ling, Heyu Ni, and Yan Yang

1917

Epigallocatechin Gallate Has a Neurorescue Effect in a Mouse Model of Parkinson Disease

Qi Xu, Monica Langley, Anumantha G Kanthasamy, and Manju B Reddy

1926

Excessive Vitamin E Intake Does Not Cause Bone Loss in Male or Ovariectomized Female Mice Fed Normal or High-Fat Diets

Hiroko Ikegami, Rie Kawawa, Ikuyo Ichi, Tomoko Ishikawa, Taisuke Koike, Yoshinori Aoki, and Yoko Fujiwara

1932

NUTRIENT REQUIREMENTS AND OPTIMAL NUTRITION

Patients with Nonalcoholic Fatty Liver Disease Have a Low Response Rate to Vitamin D Supplementation

1938

Dietary Selenium Deficiency or Excess Reduces Sperm Quality and Testicular mRNA Abundance of Nuclear Glutathione Peroxidase 4 in Rats

Ji-Chang Zhou, Shijie Zheng, Junluan Mo, Xiongshun Liang, Yuanfei Xu, Huimin Zhang, Chunmei Gong, Xiao-Li Liu, and Xin Gen Lei

1947

Total Sulfur Amino Acid Requirements Are Not Altered in Children with Chronic Renal Insufficiency, but Minimum Methionine Needs Are Increased

Rajavel Elango, Mohammad A Humayun, Justine M Turner, Mahroukh Rafii, Veronika Langos, Ronald O Ball, and Paul B Pencharz

1954

NUTRITIONAL EPIDEMIOLOGY

Phylloquinone Intake Is Associated with Cardiac Structure and Function in Adolescents

Mary K Douthit, Mary Ellen Fain, Joshua T Nguyen, Celestine F Williams, Allison H Jasti, Bernard Gutin, and Norman K Pollock

1960

Dietary Supplement Use Was Very High among Older Adults in the United States in 2011–2014

Jaime J Gahche, Regan L Bailey, Nancy Potischman, and Johanna T Dwyer

1968

Dietary Patterns Exhibit Sex-Specific Associations with Adiposity and Metabolic Risk in a Cross-Sectional Study in Urban Mexican Adolescents

Wei Perng, Carmen Fernandez, Karen E Peterson, ZhenZhen Zhang, Alejandra Cantoral, Brisa N Sanchez, Maritsa Solano-González, Martha Maria Téllez-Rojo, and Ana Baylin

1977
COMMUNITY AND INTERNATIONAL NUTRITION

A Simplified Regimen Compared with WHO Guidelines Decreases Antenatal Calcium Supplement Intake for Prevention of Preeclampsia in a Cluster-Randomized Noninferiority Trial in Rural Kenya
Moshood O Omotayo, Katherine L Dickin, David L Pelletier, Erick O Mwanga, Jacqueline Kung’u, and Rebecca J Stoltzfus 1986

Very Low Food Security in US Households Is Predicted by Complex Patterns of Health, Economics, and Service Participation
Seul Ki Choi, Maryah S Fram, and Edward A Frongillo 1992

METHODOLOGY AND MATHEMATICAL MODELING

Validation Testing Demonstrates Efficacy of a 7-Day Fluid Record to Estimate Daily Water Intake in Adult Men and Women When Compared with Total Body Water Turnover Measurement

From the American Society for Nutrition

Calendar of Events 2008

Cover image: In this issue, Xu et al. (pages 1926–31) examine the neurorescue effect of epigallocatechin gallate, a major polyphenol in green tea, in a mouse model of Parkinson Disease. Photo credit: © Deenida / Shutterstock.com.
