**CRITICAL REVIEW**

Proline Precursors and Collagen Synthesis: Biochemical Challenges of Nutrient Supplementation and Wound Healing
Vance L Albaugh, Kaushik Mukherjee, and Adrian Barbul 2011

**BIOCHEMICAL, MOLECULAR, AND GENETIC MECHANISMS**

PUFA Status and Methylmercury Exposure Are Not Associated with Leukocyte Telomere Length in Mothers or Their Children in the Seychelles Child Development Study
Alison J Yeates, Sally W Thurston, Huiqi Li, Maria S Mulhern, Emeir M McSorley, Gene E Watson, Conrad F Shamlaye, JJ Strain, Gary J Myers, Philip W Davidson, Edwin van Wijngaarden, and Karin Broberg 2018

**NUTRIENT PHYSIOLOGY, METABOLISM, AND NUTRIENT-NUTRIENT INTERACTIONS**

Leucine Transamination Is Lower in Middle-Aged Compared with Younger Adults
Paolo Tessari 2025

Whole-Grain Starch and Fiber Composition Modifies Ileal Flow of Nutrients and Nutrient Availability in the Hindgut, Shifting Fecal Microbial Profiles in Pigs
Janelle M Fouhse, Michael G Gänzle, Aaron D Beattie, Thava Vasanthan, and Ruurd T Zijlstra 2031

**NUTRITION AND DISEASE**

Oral Supplementation of Glutamine Attenuates the Progression of Nonalcoholic Steatohepatitis in C57BL/6J Mice
Cathrin Sellmann, Anja Baumann, Annette Brandt, Cheng Jun Jin, Anika Nier, and Ina Bergheim 2041

Young Pigs Consuming Lysozyme Transgenic Goat Milk Are Protected from Clinical Symptoms of Enterotoxigenic *Escherichia coli* Infection
Lydia C Garas, Caitlin A Cooper, Matthew W Dawson, Jane-Ling Wang, James D Murray, and Elizabeth A Maga 2050

A High-Carbohydrate, High-Fiber, Low-Fat Diet Results in Weight Loss among Adults at High Risk of Type 2 Diabetes

Whole-Grain Rye and Wheat Affect Some Markers of Gut Health without Altering the Fecal Microbiota in Healthy Overweight Adults: A 6-Week Randomized Trial
Stine Vuholm, Dennis S Nielsen, Kia Nørh Iversen, Julie Suhr, Peter Westermann, Lukasz Krych, Jens Rikardt Andersen, and Mette Kristensen 2067
A 25-Hydroxycholecalciferol–Fortified Dairy Drink Is More Effective at Raising a Marker of Postprandial Vitamin D Status than Cholecalciferol in Men with Suboptimal Vitamin D Status
Jing Guo, Kim G Jackson, Che Suhaili binti Che Taha, Yue Li, David I Givens, and Julie A Lovegrove

Maternal Choline Supplementation Modulates Placental Nutrient Transport and Metabolism in Late Gestation of Mouse Pregnancy
Sze Ting (Cecilia) Kwan, Julia H King, Jian Yan, Zhen Wang, Xinyin Jiang, Jason S Hutzler, Hallie R Klein, J Thomas Brenna, Mark S Roberson, and Marie A Caudill

Establishment of a Meal Coding System for the Characterization of Meal-Based Dietary Patterns in Japan
Kentaro Murakami, M Barbara E Livingstone, and Satoshi Sasaki

Diet Quality Is Linked to Insulin Resistance among Adults in China
Zhihong Wang, Linda S Adair, Jianwen Cai, Penny Gordon-Larsen, Anna Maria Siega-Riz, Bing Zhang, and Barry M Popkin

Consumption of Iron-Biofortified Beans Positively Affects Cognitive Performance in 18- to 27-Year-Old Rwandan Female College Students in an 18-Week Randomized Controlled Efficacy Trial
Laura E Murray-Kolb, Michael J Wenger, Samuel P Scott, Stephanie E Rhoten, Mercy G Lung’aho, and Jere D Haas

Fatty Acid Proportions in Plasma Cholesterol Esters and Phospholipids Are Positively Correlated in Various Swedish Populations
Matti Marklund, Ronnie Pingel, Fredrik Rosqvist, Anna Karin Lindroos, Jan W Eriksson, Bengt Vessby, Jan Oscarsson, Lars Lind, and Ulf Risérus

Supplement: Nutrition Modeling in the Lives Saved Tool (LiST)
