CONTENTS

No. 1 JANUARY 1958

GENEVIEVE STEARNS. Biography of Philip Charles Jeans (1883–1952) with frontispiece ......................................................... 1

ROBERT L. WIXOM, GEORGE E. PIPEKIN, JOHN H. WIKMAN AND PAUL L. DAY.
Nutritional studies with glycine, aminoethanol and related compounds
in the chick ................................................................. 18

H. H. DRAPER WITH THE TECHNICAL ASSISTANCE OF CAROL LOWE. The absorption
of radiolysine by the chick as affected by penicillin administration 33

HELEN LINKSWILER. The effect of the ingestion of ascorbic acid and dehy-
droascorbic acid upon the blood levels of these two components in human
subjects ............................................................... 43

B. G. CREECH, M. M. RAHMAN, B. L. REID AND J. R. COUCH. Exudative
diathesis in chicks ....................................................... 55

C. O. STEVENS AND L. M. HENDERSON. Nutritional studies with the hyper-
thyroid rat .............................................................. 67

L. A. MAYNARD, DALLAS BOGGS, GEORGE FISK AND DANIEL SEGUIN. Dietary
mineral interrelations as a cause of soft tissue calcification in guinea pigs 85

MAY S. REYNOLDS, DOROTHY L. STEEL, EVELYN M. JONES AND C. A. BAUMANN
WITH THE TECHNICAL ASSISTANCE OF ELEANOR HALTER, MIRIAM McTIER,
SANATA REDDY, FRANCES SCHMIDT AND GERTRUDE SKERSKI. Nitrogen
balances of women maintained on various levels of methionine and cystine 99

J. G. BIER, G. M. BRIGGS AND C. J. POLLARD. The acceleration of vitamin E
deficiency in the chick by torula yeast .............................. 113

ALVIN S. WENNEKER AND LILLIAN REIGARD. The effect of ethionine feeding
on liver and kidney coenzyme A content in the rat ................. 127

PRISCILLA WHEELER AND AGNES FAT MORGAN. The absorption by immature
and adult rats of amino acids from raw and autoclaved fresh pork ..... 137

HARTLEY W. HOWARD, WILLIAM J. MONSON, CLIFFORD D. BAUER AND RICH-
ARD J. BLOCK. The nutritive value of bread flour proteins as affected by
practical supplementation with lactalbumin, nonfat dry milk solids,
soybean proteins, wheat gluten and lysine .......................... 151
No. 2 FEBRUARY 1958

LAURENS ANDERSON, ROBERT H. COOTS AND JUNE W. HALLIDAY. A critical evaluation of myo-inositol as an ascorbic acid-sparing agent ............................... 167

M. KOKATNUR, N. T. BAND, F. A. KUMMEROW AND H. M. SCOTT. Effect of dietary protein and fat on changes of serum cholesterol in mature birds ........... 177

OTTO A. BESSEY, OLIVER H. LOWRY, ELIZABETH B. DAVIS AND JEANNE LOPEZ DORN. The riboflavin economy of the rat .............................................. 185

CHARLOTTE M. YOUNG, ANN M. BROWN, ELIZABETH L. EMPEY AND DON TURK. Stepwise weight reduction in obese young men: Nitrogen, calcium and phosphorus balances .............................................. 203

MARY R. GRAM AND RUTH OKEY WITH THE TECHNICAL ASSISTANCE OF PAUL GEIGER. Incorporation of acetate-2-C14 into liver and carcass lipids and cholesterol in biotin-deficient rats ........................................ 217

HARRY BARON. Some effects of DL-methionine and glycocyamine on growth and nitrogen retention in rats ......................................................... 229

JOSEPH J. BARBORIAK, WILLARD A. KREHL, GEORGE R. COWGILL AND A. D. WHEDON. Influence of high-fat diets on growth and development of obesity in the albino rat ....................................................... 241

JOSEPH J. BARBORIAK, WILLARD A. KREHL AND GEORGE R. COWGILL. Effects of short-term pantothenic acid deficiency in the growing rat ....................... 251

J. D. GUPTA, A. M. DAKROURY, A. E. HARPER AND C. A. ELVEHJEM. Biological availability of lysine ................................................................. 259

H. M. EDWARDS, JR., E. J. YOUNG AND M. B. GILLIS. Studies on arginine deficiency in chicks .................................................................................. 271

HAROLD L. ROSENTHAL AND LEO CRAVITZ. Organ, urine and feces vitamin B12 content of normal and starved rabbits ............................................ 281

R. M. FORSHE, LUCILLE VAUGHAN AND MARTHA YONE. Dependence of biological value on protein concentration in the diet of the growing rat ........... 291

STANLEY N. GERESHoff, M. A. LEGG AND D. M. HEIDEST. Adaptation to different calcium intakes in dogs .......................................................... 303

MARGARET O. OSBORN, CHRISTINE WEAVER AND JEAN ANDERSON. Cholesterol in blood and tissues of adult pantothenic acid-deficient rats ............ 313

No. 3 MARCH 1958

E. M. HUTTON, G. M. WINDRUM AND C. C. KRATZING. Studies on the toxicity of Indigofera endecaphylla. I. Toxicity for rabbits ................................. 321

ANN W. WERTZ, MARY E. LOJKIN, BERYL S. BOUCHARD AND MARILYN B. DERBY. Tryptophan-niacin relationships in pregnancy ............................. 339
CONTENTS

NORMAN JOLLIFFE, ROBERT S. GOODHART, MORTON ARCHER, HADY LOPEZ AND
FLAVIO GALBAN DIAZ. Nutrition status survey of the sixth grade school
population of Cuba ................................. 355

K. K. CARROLL. Digestibility of individual fatty acids in the rat ............. 399

K. K. CARROLL AND J. F. RICHARDS. Factors affecting digestibility of fatty
acids in the rat ........................................ 411

CHARLES H. DUNCAN AND MAURICE M. BEST WITH THE TECHNICAL ASSISTANCE
OF JOAN D. WATHEN. Effects of feeding wool-fat sterols on the sterol
content of serum and liver of the rat .................................. 425

IRENE R. PAYNE. Effect of altitude and diet on hematopoiesis and serum
cholesterol ............................................. 433

J. D. GUPTA, A. M. DAKROURY AND A. E. HARPER. Observations on protein
digestion in vivo. I. Rate of disappearance of ingested protein from the
gastrointestinal tract ........................................ 447

JEAN H. SABRY, KATHERINE H. FISHER AND MARY L. DODDS. Human utiliza-
tion of dehydroascorbic acid .................................... 457

JEAN H. SABRY AND MARY L. DODDS. Comparative measurements of ascorbic
acid and total ascorbic acid of blood plasma .......................... 467

M. R. SPIVEY FOX, GEORGE M. BRIGGS AND LIGIA O. ORTIZ. Studies of amino
acid diets for the chick ........................................ 475

U. D. EEQISTER AND E. W. PETERSON. The influence of carbohydrate on the
utilization of rations containing soybean alpha protein .................... 483

S. A. MILLER AND J. B. ALLISON. The dietary nitrogen requirements of the
cat ..................................................... 493

No. 4 APRIL 1958

MACIE COLLINS AND C. A. ELVEHJEM. Ascorbic acid requirement of the guinea
pig using growth and tissue ascorbic acid concentrations as criteria ......... 503

HANS KAUNITZ, CHARLES A. SLANETZ AND RUTH ELLEN JOHNSON AND VIGEK
K. BARAYAN AND GEORGE BARSKY. Relation of saturated, medium- and
long-chain triglycerides to growth, appetite, thirst and weight main-
tenance requirements ........................................ 513

WALTER H. OTT, ALICE M. DICKINSON AND ANN VAN INDERSTINE AND
ALVA W. BAZEMORE, ATWOOD C. PAGE, JR. AND KARL FOLKERS. Studies
related to “vitamin B₉” ..................................... 525

RICHARD H. BARNES AND GRACE PIALA. Effects of the prevention of coproph-
agy in the rat. I. Growth studies ................................... 535

FRANK R. MKRZ, ANDREW M. JOHNSON AND HOMER PATRICK. Metabolism of
cesium and potassium in swine as indicated by cesium-134 and potas-
sium-42 ................................................... 541
CONTENTS

PRISCILLA W. LANE AND MARGARET M. DICKIE. The effect of restricted food intake on the life span of genetically obese mice .............................. 549

H. P. COHEN, H. C. CHOTZT AND C. P. BERG. Response of rats to diets high in methionine and related compounds .................................................. 555

HELEN L. MAYFIELD AND RICHARD R. ROEHM. Carotene utilization and cholesterol metabolism as influenced by added choline and vitamin B₃₃ to diets containing yeast or a synthetic vitamin mixture .............................. 571

F. W. HILL AND D. L. ANDERSON. Comparison of metabolizable energy and productive energy determinations with growing chicks ................................. 587

ROBERT W. HILLMAN AND MARTIN C. ROSNER WITH THE TECHNICAL ASSISTANCE OF MARIE E. LEGRANDE. Effects of exercise on blood (plasma) concentrations of vitamin A, carotene and tocopherols ........................................... 605

JOHN F. HERNDON, EDWARD G. RICE, ROBERT G. TUCKER, EDWARD J. VAN LOON AND SAMUEL M. GREENBERG. Iron absorption and metabolism. III. The enhancement of iron absorption in rats by D-sorbitol ........................................... 615

ROBERT L. SQUIBB, ALVARO AGUIRRE, J. EDGAR BRAHAM, NEVIN S. SCRIMSHAW AND EDWIN BRIDGFORTH. Effect of age, sex and feeding regimen on fat digestibility in individual rats as determined by a rapid extraction procedure ........................................... 625

GEORGE P. VENNART, VINCENT P. PERNA AND WELLINGTON B. STEWART. Fatty liver of portal type: Cured by lysine plus tryptophan ........................... 635
